Verdana Foods

Plant-based snacks people actually crave.

Seed Round · 2026 · Confidential

THE PROBLEM

Better-for-you snacking is still a compromise

- Shoppers want healthier snacks — but most plant-based options taste like a sacrifice.
- The category is fragmented: dozens of niche brands, no trusted household name.
- Health-focused millennials and Gen Z are switching fast, yet feel underserved.
- Retail buyers want a plant-based line with real velocity — not more shelf clutter.

taste as the #1 barrier

OUR SOLUTION

A snack brand built around crave and clean

- A focused line of plant-based snacks — clean labels, unapologetically bold flavor.
- Priced to compete, formulated to repeat: blind-tested to beat category leaders.
- Omnichannel from day one: DTC subscription plus retail, one recognizable brand.
- A supply chain designed to expand margin as volume grows.

our reach within 5 years

- Plant-based snacking is growing ~11% a year — outpacing total snacks.
- Private-label fatigue is opening the door for a trusted challenger brand.
- DTC + retail data now lets a small team punch far above its weight.

PRODUCT

From first taste to standing order

01

Discover

Sampler box + quiz learns taste preferences.

02

Subscribe

Personalized monthly box; easy to adjust or pause.

03

Expand

Retail availability keeps the brand top-of-mind.

The result: a habit, not a one-time purchase.

Subscription turns a great product into predictable, compounding revenue.

BUSINESS MODEL

Two engines, one brand

DTC subscription

- High margin & first-party data
- Predictable, repeat revenue
- Fuels product decisions

Retail

- Reach & credibility
- Trial at scale
- DTC data de-risks buyer pitches

- Gross margin target ~62% at scale · blended CAC payback under 6 months.

TRACTION
